

Music Works offers a wide variety of instruments for their students to use.

TCF Teams Up With Music Works

The Taylor Community Foundation (TCF) recently awarded a \$1,000 grant to Music Works. Music Works provides music therapy services to children and young adults with autism, Down syndrome, cerebral palsy and other genetic abnormalities

With a brand new location that opened up in Swarthmore in February 2009, Music Works is now available to the TCF Service Area. Music Works gives children a place where they can interact socially, learn and develop communication skills, increase focus and attention, reduce anxiety and build self esteem.
