

Academy Park Students Brian McDonald, Ashley Le, Heather Jackson and Chris Matusik lend their support to the American Heart Association

Academy Park Students Double Their Fundraising Efforts for the American Heart Association with a Challenge Grant from TCF

TCF always enjoys seeing young people in our communities take an active role in supporting their neighbors, particularly when that support has a health and wellness focus. Academy Park High School National Honor Society Members organized a fundraiser for the American Heart Association. Under the leadership of student Ashley Le, the group obtained a challenge grant from TCF, matching dollar for dollar the first \$500 raised by the students. The fundraiser included the purchase of cut out hearts to post throughout the school, a 50/50, and chances on several prize baskets. We are honored to be a part of the solution in assisting young philanthropists at Academy Park, and encourage other young people to do the same. TCF is always willing to provide direction and guidance to a new group looking to make a difference.
